

Designed & Engineered in India

About us:

Aashray Infotech Private Limited offers on-premise, AI-enabled platforms that help organizations become DPDP-compliant and audit-ready. Our platforms keep you one step ahead in a digital-first India at a faster pace and at an industry level competitive price.

Your data. Your infrastructure. Your control

Your data stays secure, within your environment and system, and always under your control. With us, 0 bytes leave your network.

Faster than consulting peers

.... Cheaper than peers

By how much % we reduce their efforts

Constant Innovation:

Our platform currently uses AI enabled automation to simplify compliance work your team used to do manually.

As technology, regulation, and threats evolve. We, at Aashray Infotech Private Limited, will also evolve. Every version will bring sharper AI and new tools to simplify compliance readiness, without asking you to start over.

Our products (drop down)

— THE SAME DIFFERENTIATION

Compliance without giving up *control*

Your data shouldn't have to leave home to get smarter. Kavach runs entirely inside your infrastructure, strengthening data protection while sensitive information never crosses your perimeter.

 Data stays with you Your sensitive data remains inside your infrastructure at every stage — no cloud hop, no third-party custody, no exceptions.	 AI-enabled Intelligent automation finds risk, flags gaps, and takes on compliance work your team used to do line by line, by hand.	 DPDP ready Built against the Digital Personal Data Protection Act, so you're prepared for requirements and audits as they arrive.
